PROFESSIONAL SUMMARY

Frontend-focused Developer with a strong foundation in building dynamic, user-facing features with **React** and **Next.js**. Proven ability to translate complex product requirements and designs into high-quality, responsive, and accessible user interfaces. Eager to contribute to a fast-paced, product-driven team, taking full ownership of the user experience.

TECHNICAL SKILLS

- **Front-End:** React, Next.js, JavaScript (ES6+), HTML5, CSS, Tailwind CSS
- **State Management:** React Context API
- **Back-End:** Node.js, Next.js (API Routes), Nest.js, PHP, Prisma
- **Databases:** PostgreSQL, SQL
- **Tools & Concepts:** Git, RESTful APIs, Zod, JWT, Agile Methodologies, RBAC, Responsive & Accessible UI Design

PROFESSIONAL EXPERIENCE

Engineering Intern | gllidex tech | Oct 2025 - Present

- Assist in the end-to-end development, testing, and deployment of user-facing software solutions.
- Support the engineering team by debugging, improving documentation, and participating in code reviews to maintain code quality.
- Collaborate with senior engineers on assigned projects, applying software development best practices.

Full Stack Web Developer Intern | McKodev Tech Lab | Mar 2021 - Dec 2023

- Engineered and maintained dynamic web applications, focusing on building interactive, user-facing components.
- Optimized website functionality and refactored legacy code, contributing to a **~15% improvement in page load speeds** to enhance user experience.
- Developed scalable back-end systems using PHP and JavaScript to support frontend features.
- Actively contributed to code reviews and debugging processes, helping to **reduce production bugs by ~10%**.

DeFi Analyst | Pander E Currency | Apr 2021 - Nov 2021

- Conducted in-depth research on decentralized finance (DeFi) protocols to evaluate market trends and identify risks.
- Analyzed token performance to provide data-driven insights, contributing to strategic decisions.

SELECTED PROJECTS

School Management System | In Progress

- Architected a robust RESTful backend API using **Next.js (API Routes)**, **Prisma**, and **PostgreSQL** to power a comprehensive school management system.
- Engineered secure **JWT authentication** and **Role-Based Access Control (RBAC)** using Next.js Middleware.
- Currently developing the responsive frontend UI, translating designs into functional components using **React** and **Tailwind CSS**.

Hospital Management System | 2024

- Architected a full-stack hospital management system to streamline patient appointment booking and doctor management.
- Built an intuitive, responsive, and accessible user interface for appointment scheduling using **React**, **Next.js**, and **Tailwind CSS**.
- **Stack:** Next.js, React, Prisma, Tailwind CSS, PostgreSQL
- **Link:** <https://hospital-dashboard-henna-beta.vercel.app/>

Blog Application | 2023

- Developed a full-featured blog platform empowering writers to publish articles, stories, and newsletters.
- Designed and implemented a responsive layout featuring a writer dashboard and an intuitive CMS using **PHP**, **SQL**, and **Tailwind CSS**.

EDUCATION & CERTIFICATIONS

National Diploma in Computer Science | Federal Polytechnic, Ado-Ekiti (2024) **ALX ProDev Frontend Program** (In Progress) **B.Sc. in Software Engineering** (Upcoming) **Meta Certificate in Front-End Development Essentials** | Coursera (2023)

-
